Bahçeşehir University (BAU), Food and Agriculture Organization of the United Nations (FAO), CIFAL Istanbul, UNITAR jointly opened the Smart Agriculture and Sustainable Food Systems Application and Research Center. Within this center, our center provides trainings to food producers and the public. The first of the trainings was held in June in Piraziz, Giresun.

"Local Products, Gastronomy, Culture and Cooperatives: Women and Cooperatives in Cooperation with Bau-Fao" was held in Ordu in September. These trainings aim to ensure equal opportunities in education in all regions of Turkey and contribute to sustainable development. During the event, women's cooperatives were trained by experts on storage and storage of agricultural products, agricultural entrepreneurship, good practices in agriculture and their transfer, community building and decision-making, developing business ideas from local cuisine, creative communication techniques, and bringing local agricultural products to the world market.

World Food Day 2021 aims to raise awareness on the need to support the transformation to MORE efficient, inclusive, resilient and sustainable agri-food systems for better production, better nutrition, a better environment and a better life, leaving no one behind. For the second time, #WorldFoodDay 2021 is celebrated against the backdrop of the COVID-19 pandemic, which has led to the degradation of agri-food systems and an unprecedented global economic downturn, resulting in a significant reduction in livelihoods and incomes, as well as increased food insecurity and inequalities. Under these special circumstances, we gathered with our students to develop new ideas and projects on food systems.

04.11.2021 - Women's Leadership and Inclusion: Looking to the Future After Covid 19 (Webinar)

The pandemic has deepened gender inequality both economically and socially. Therefore, it has become an obligation to first voice the existing problems and then take action based on those who speak. This panel was organized precisely to give voice to these imperatives.

Leading figures in their fields, from media to diplomacy, will speak after COVID-19 on women's participation in the economy and leadership positions in their respective fields. In this way, the answer to the question "What does the future hold for women in terms of participation and leadership despite the negative effects of the pandemic?" was sought.

The challenges of the COVID-19 pandemic have made us realize that there is an urgent need to transform education to realize people's right to quality education. The pandemic has led to the closure of many schools and the end of education for many students. Inequalities between rural and urban areas also remain high. Currently, 60% of students are currently out of school and around 258 million children and youth are out of school. We must guarantee inclusive and equitable quality education and promote lifelong learning opportunities for all. Achieving inclusive and quality education for all reaffirms the belief that education is one of the most powerful and proven tools for sustainable development. Education liberates the intellect, unlocks the imagination and is fundamental to self-esteem. It is the key to prosperity and opens up a world of opportunities that make it possible for each of us to contribute to a progressive, healthy society. Learning benefits every human being and should be open to all. Education is key to creating a just and sustainable world, and this can be done through transforming the education system worldwide.

WORKSHOP: VALUE-BASED HEALTHCARE IN TURKEY

2

Background

At its core, value-based healthcare (VBHC) is about improving health outcomes for patients. The 'value' is derived from ensuring that patients receive the best outcome from the healthcare they receive, while doing so at the most reasonable cost. The VBHC model utilises a team-based approach that is centered around patient care, allowing for more coordinated care and outcomes that can be measured more easily. The VBHC model differs from common fee-for-service model, in which healthcare providers are compensated based on the number of services or procedures delivered, by focusing on quality and not quantity. Turkey's commitment to prioritising cancer care, alongside its huge strides in developing a universal healthcare system and focus on healthcare assessment suggest clear benefit for the adoption of a VBHC approach.

Guiding questions

- What is VBHC?
- How do patient-reported outcomes improve quality and outcomes?
- What are the challenges and opportunities of adopting a VBHC pilot project within the Turkish context?

Event objectives

- Introduce the VBHC project and convene key stakeholders in Turkey;

25.01.2022 - Value-Based Health in Turkey (Workshop)

The screenshot shows a Zoom meeting titled "Zoom Toplantı" with 14 participants. The participants are arranged in a grid. The chat window on the right shows a conversation about administrative roles in government. The chat messages are:

- University/ and Public hospitals
- Dr. Umut ... gönderilen Herkes 04:02 PM
- DU we have to add some administrative people from government (ministry of health)
- Geoff Ibb... gönderilen Herkes 04:03 PM
- It would be very helpful for you to guide us in which administrative government stakeholders would be good to include.
- Dr. Umut ... gönderilen Herkes 04:03 PM
- DU 👍

The chat window also shows a "Mesajlarınızı kimler görebilir? Kaydetme Açık" notification and a "Kime: Nefti ... (Doğrudan Mesaj)" dropdown menu.

Core value-based healthcare is about improving health outcomes for patients. Value is derived from ensuring that patients get the best outcome from their health care that Davis sees, while doing so at the most reasonable cost. Turkey's major strides in developing a universal health system, as well as its commitment to prioritize cancer treatment and focus on health services evaluation, suggest clear benefits for adopting this approach.

BAU students*

The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, offers a common action plan for peace, people, planet, prosperity and partnerships now and in the future. The "SDG 101" course was organized by CIFAL Istanbul, UNITAR and CIFAL Istanbul Youth Platform within Bahçeşehir University and aimed to provide an overview of the SDGs and Agenda 2030, their goals and how to build a better future and a more sustainable world for all at youth level. In this course, participants gained insight on how the SDGs are in scope and how they relate to each other to understand the outcomes of the SDGs. Participants understood why the goals are useful for organizations that want to play a role in shaping a sustainable future and saw how Turkey is on track to achieve the 2030 goals.

It is the responsibility of all individuals and humanity to actively support women's empowerment in many areas of life. Girls and women equally deserve to be seen, heard and supported in reaching their potential as much as men. It is of utmost importance to eliminate the barriers that prevent girls and women from achieving their free will and dreams and building their lives freely under equal rights.

"Women and Girls in Science" webinar is an event organized by CIFAL Istanbul, UNITAR and CIFAL Istanbul Youth Platform at Bahçeşehir University, aiming to raise awareness and take action on the rights of women and girls to take part in technology and science. The event is a supporting action of the 5th and 10th Sustainable Development Goals, which are 'Gender Equality' and 'Reduced Inequalities' respectively, along with the theme of sustainability.

Projelerde Değerlendirilmesi Gereken Konular

Grupların kendilerini bir enerji şirketinin yönetimi olarak düşünerek projelerini aşağıdaki çerçevede hazırlamaları beklenmektedir.

- Hangi alanlara yatırım yapacaksınız? Enerji üretimi, dağıtım ve satış pazarlama alanlarında düşünülebilir. (Üretim portföyleri: doğalgaz, hidro, biyokütle, rüzgar, solar vb.)
- Nasıl bir iş gücü planı oluşturursunuz? Yapacağınız yatırımlar için kullanacağınız kaynaklar nelerdir?
 - o Finansal Kaynaklar (Bütçe ve finansman planı vb.)
 - o Şirketinizin organizasyon yapısını nasıl konumlandırırsınız. (istihdam oranı - fonksiyon ve cinsiyet bazında)
 - o Üretim için teknik, makine, teçhizat, hammadde vb.
- Ürettiğiniz elektriğin ticareti/ satışı için hangi kanalları kullanırsınız? (yurtiçi, yurtdışı, toptan, perakende)
- Olabilecek krizlere karşı ne gibi önlemler alırsınız?
- Kuracağınız şirketin dijitalleşme stratejisi (block zincir, siber güvenlik, yapay zeka, makine öğrenmesi, vb. kullanımı) nedir?
- Eğer bir enerji üretim tesisi yatırımı yaparsanız bu yatırım için hangi lokasyonu tercih edersiniz?
- Şirketinizin kısa vadeli (5 yıllık) uzun vadeli (10 yıllık) stratejik hedefleri nelerdir?
- Şirketiniz İnsan Kaynakları politikasını nasıl oluşturursunuz? (genel istihdam ve kadın istihdamını artırmak için ne gibi faaliyetler yürütürsünüz?)
- Enerji verimliliği konusunda ne gibi inisiyatifler alırsınız?
- Sürdürülebilirlik hedefleriniz nelerdir? (UN 17 Kalkınma hedeflerini düşünerek belirtiniz)
- Şirketinizin Kurumsal Sosyal Sorumluluk Politikası nedir?
- Şirketinizin İnovasyon Politikası nedir?

Jüri Değerlendirmesi için Proje Sunumları Kriterlerine Dair Açıklamalar

1- Orjinal ve Yenilikçi İçerik ve Aktarımı Bakımından Değeri ile İlgili Kriterler

- Yenilikçi yaklaşım, strateji, yöntem ve tekniklerin ayrıntılı şekilde açıklanması
- Projenin disiplinlerarası bir operasyonel çerçeveye sahip olması
- Hedeflerin gerçekçi, proje sürecinin açıkça planlanmış olması
- Projenin proje değerlendirme kriterlerinde belirtilen amaçlara uygun olup, konu veya uygulama yöntemleri literatürle kendine özgü bir yönüne sahip olması
- Alanda mevcut projeler ve iş planları varsa ne şekilde yararlanıldığının açıklanması

2- Projenin Yapılabilirlik Bakımından Değeri ile İlgili Kriterler

- Proje ekibinin, projenin gerektirdiği sayıda ve uygun ekperiye göre seçilmesine değinilmesi
- Proje ekibinin, tüm üyelerinin görev, yetki ve sorumlulukları gerekeceğiyle belirlenmiş olması
- Projenin hayata geçirilmesi durumunda hangi kaynaklara ihtiyaç duyulabileceğinin belirlenmiş olması
- Projenin hayata geçirilebilirliği düşünüldüğünde yürütülmesinde öngörülen sorunlar ve nasıl aşılabileceğine dair plan
- Projenin etik ve sosyal değerler ile hukuka uygunluğu
- Proje planlanırken risklerin dikkate alınma durumu (risklere karşı hazırlanan bir B planı var mı? uygulanıyor mu?)
- Projenin yürütülme sürecine ilişkin yapılan planlanmanın uygunluğu

3- Projenin Yaygın Etkisi Bakımından Değeri ile İlgili Kriterler

- Projenin niteliğinin, proje konusu, proje ekibi ve önerilen altyapının organizasyonu ile uyumu
- Projenin yeni projelerin üretimine temel oluşturabileceği özelliği

4- Sürdürülebilir Kalkınma Hedeflerine İlihtil Bakımından Değeri ile İlgili Kriterler

- Proje BM2030 Ajandası kapsamında sunulmuş olan Sürdürülebilir Kalkınma Amaçlarına (bir ya da birkaç tanesi) ile ilişkilendirilmiş ve bunun açıklanmış olması

18.05.2022 – Multilateralism and Role of Diplomacy for Peace (Webinar)

As countries face new and long-standing challenges, such as territorial disputes, globalization, international terrorism, and global issues, it is crucial to promote the principles of multilateralism and international cooperation that underpin the UN and the 2030 Agenda. In this context, the International Day of Multilateralism and Diplomacy for Peace has been celebrated since 24 April 2019 to draw attention to the three pillars of the UN and to ensure peace and security, development, and human rights. The webinar "Multilateralism and Diplomacy for Peace" is an online event organized by CIFAL Istanbul Youth Platform in collaboration with CIFAL Istanbul, UNITAR, and Bahçeşehir University. The webinar raised awareness of the role of diplomacy in peacekeeping through knowledge and expert experiences to help assess and respond to tensions arising from the absence of multilateral diplomacy.

Globally, energy production and consumption is by far the largest source of greenhouse gas emissions from human activities. Around two-thirds of global greenhouse gas emissions are linked to fossil fuels burning for energy to be used for heating, electricity, transport, and industry. Therefore, it is almost impossible to reduce our greenhouse gas emissions and impact the climate crisis without changing our energy practices. The "Impacts of the Energy Sector on Climate Change and Energy Transition" webinar is an online event organized by CIFAL Istanbul, UNITAR, and Bahçeşehir University in collaboration with BAU Energy Student Club, aiming to discuss new and emerging technologies and raise awareness at the youth level.

30.05.2022 - Sustainability and Artificial Intelligence (Webinar)

The graphic features logos for Cifal Istanbul Youth Platform, Cifal Istanbul, and Unitar. The main title is 'SÜRDÜRÜLEBİLİRLİK VE YAPAY ZEKA'. The date and time are 'Tarih: 30.05.22' and 'Saat: 19:00'. A circular portrait of Fatma Nur YOKUŞ is shown, with her name and title 'Fatma Nur YOKUŞ Co-President @Cifal Istanbul Youth Platform' below it. At the bottom, there are logos for Google Developer Communities Turkey and Google Developer Student Clubs.

On Monday, May 30th, Cifal Istanbul Youth Platform and Google Developer Communities organized a "Sustainability and Artificial Intelligence" event in collaboration with Cifal Istanbul Youth Platform and Google Developer Communities to raise awareness among young people interested in technology about how artificial intelligence technologies provide opportunities and tools to overcome environmental challenges. Throughout the event, all sustainable development goals were discussed and at least one example of an AI technology that serves each goal was given. The event was held live on YouTube and met with approximately 300 viewers.

People around the world face conditions such as war, violence, natural disasters, climate change, which force them to flee their countries, resulting in one of the greatest challenges of our time - the growing number of refugees. Refugees' basic rights, such as health, social integration or integration into the workforce, are not so visible in the public eye, as their growing numbers or their importance for different countries are widely discussed in political arenas. The aim of the event is to raise awareness about less discussed health issues of refugees, such as their mental and psychological health and recovery processes, and also to increase knowledge about the sociological aspects of migration and being a refugee. The relevant SDGs supporting the World Refugee Day Panel are; 1- End Poverty, 3- Healthy Individuals, 5- Gender Equality, 8- Decent Work and Economic Growth, 10- Reduced Inequalities, 11- Sustainable Cities and Communities, 16- Peace and Justice and 17- Partnerships for the Goals.

“PEACE AND STABILITY IN THE NEIGHBOURHOOD”

10-12 JUNE 2022

ZİFİN HOTEL, GİRESUN, TURKEY

The international system has been experiencing rapid changes and significant challenges. While global considerations encourage world leaders to look at broader trends, regional dynamics pull them back into conflicts. Decision-makers, political advisors, academics, and experts on peace and conflict are coming together at Kulakkaya, Giresun, to explore global undercurrents shaping the future of world peace and the regional dynamics challenging peace and stability. They will come up with recommendations to world leaders to achieve lasting peace, security, and stability.

CIFAL ISTANBUL YOUTH PLATFORM CERTIFICATE CEREMONY

June 28, Tuesday 18.00 - 19.30 Academic Terrace

Since its establishment in December 2021, CIFAL Istanbul Youth Platform has reached 61 people among Bahçeşehir University students and 30 people from different universities in Turkey. This student community has taken a keen interest in the work of CIFAL Istanbul and CIFAL Istanbul Youth Platform and asked CIYP's core team to organize numerous events. In the last seven months, thirteen different events were hosted by CIYP, seven online and four face-to-face. Members also represented the Platform in three different national or local organizations. CIFAL Istanbul Youth Platform held its first annual closing ceremony for platform members on June 28, 2022. At this event, a short presentation of the platform's past activities and closing remarks were made, and members were awarded certificates for their efforts and interest in mainstreaming sustainability and all its key elements.
